UCL Division of Psychology and Language Sciences We undertake world-leading research and teaching in mind, behaviour, and language. It brings together researchers in a range of disciplines such as cognition, neuroscience, linguistics, education, communication, medicine, health, phonetics and development.

### **UCL Psychology and Language Sciences - UCL - London's**

Phonetics is a branch of linguistics that studies the sounds of human speech, or "in the case of sign languages" the equivalent aspects of sign. It is concerned with the physical properties of speech sounds or signs : their physiological production, acoustic properties, auditory perception, and neurophysiological status.
