

fiber optics communication solution pdf

Optical fiber is used as a medium for telecommunication and computer networking because it is flexible and can be bundled as cables. It is especially advantageous for long-distance communications, because light propagates through the fiber with much lower attenuation compared to electrical cables.

Optical fiber - Wikipedia

Automotive Fiber Optics. Fiber optic technology is becoming the medium of choice for a variety of automotive applications. With its unique characteristics, fiber optics are a naturally ideal choice for lighting, communications, and sensing requirements.
