Glossary of firefighting equipment - Wikipedia

The Fire Triangle or Combustion Triangle or "Fire Diamond" are simple models for understanding the necessary ingredients for most fires. The triangle illustrates the three elements a fire needs to ignite: heat, fuel, and an oxidizing agent (usually oxygen). A fire naturally occurs when the elements are present and combined in the right ...

Municipal budgets in the northwest continue to be under significant pressure to reduce costs and spending. With that said, the courses offered at FireCon, on a per-student basis, are likely the best opportunity for your first responders to receive affordable training at a recognized standard.

FireCon | Ontario Association of Fire Chiefs

This week's questions focus on training firefighters to recognize, prevent, and if necessary react appropriately to flashover conditions. Casey Lindsay of the Garland, Texas Fire Department sent an e-mail to a number of fire behavior instructors regarding how they conduct "flashover training"
