Problem Seeking: An Architectural Programming Primer, 5th

Architectural programming is a team effort that requires close cooperation between architects and their clients. Problem Seeking, Fifth Edition lays out a five-step procedure that teams can follow when programming any building or series of buildings, from a small house to a hospital complex. This simple yet comprehensive process encompasses the entire range of factors that influence the design of buildings.

Problem Seeking: An Architectural Programming Primer

techniques of "problem seeking" have evolved over a long period of architectural practice. As presented in this report, they are not the product of one man, but the accumulated efforts of many members of the firm. CRS is happy to present this report to its clients and friends. William M. Pella. John W. Focke. November 1969. Chapter One Why Problem Seeking? 3 An orderly framework 3 Who is "the ...
