tionships with other people, if it is applied in an informed way. Health. Page 2 Page 2 psychology refers to the application of psychological theory and research to promote evidence-based personal and public health. To do this, psy-chology must take account of the context of people's lives. Certain sets of beliefs and behaviours are risk factors for illness; therefore some know-ledge of ...

PSYCHOLOGY IN THE CONTEXT OF HEALTH AND SOCIAL CARE

Work and organizational psychology can be considered an indicator of the development of an affluent society. This is because the transition of society from a state of poverty to one of wealth has gradually caused the emergence of subjectivity, because the products of work are more and more immaterial and psychological, and because people's aspirations are becoming more and more subjective ...
